The exhibit was part of TIMELESS, a two-day celebration of timepiece artistry

MACAO, Sept. 27, 2023 /PRNewswire/ -- **Sands Lifestyle** successfully presented the inaugural **TIMELESS at The Londoner[®] Macao** on Sept. 25-26. The highlight was the **Grand Prix d'Horlogerie de Genève (GPHG)** exhibition, a showcase of the 84 nominated timepieces of the 2023 GPHG competition. Often referred to as the watch industry's "Oscars", the competition is designed to recognise watchmaking excellence worldwide. Along with an insightful panel discussion and expert-led masterclasses, the two-day event attracted watch connoisseurs and collectors from across Asia.

The Londoner Macao was the first location in the world to exhibit the 2023 GPHG nominations, providing visitors with an exclusive and rare opportunity to view the world's finest timepieces in one location. The exhibited masterpieces had a collective value of approximately MOP 36 million. The exhibit was held in The Londoner's Crystal Palace, an impressive, palatial, light-filled atrium, constructed in glass, iron and marble and was the perfect setting for aficionados, collectors and the curious to get up close to GPHG's best of the best for 2023.

The nominated GPHG watches compete in 14 categories, including mechanical exception, artistic crafts, complication, and sports watches. Each category highlights specific aspects of watchmaking excellence, including design, technical innovation, craftsmanship and overall performance. The winners of each category will be announced at an awards ceremony to be held in Geneva this November.

The officiating ceremony was held on Sept. 25, and was well-attended by media, VIP guests, industry players, celebrities and socialites. Officiating guests included Maria Helena de Senna Fernandes, Director, Macao Government Tourism Office; Dr. Wilfred Wong, President, Sands China Ltd.; Michel Lamunière, Chairman & CEO of Tatler Asia; Carine Maillard, Director of GPHG; Austen Chu, Founder of Horoloupe and Taiwanese actor and Golden Horse award winner Yo Yang.

Dr. Wilfred Wong said, "As an exceptional property, we knew that The Londoner Macao would be the perfect location to host such an esteemed world-class event. An event that also aligned perfectly with the aim of Sands Lifestyle, which is to provide enhanced experiences beyond guests' expectations. As expected given the calibre of timepieces that were on display during the two days, combined with a thought-provoking panel discussion and expert-led masterclasses, it was well received by an international audience of fine watch collectors."

After the officiating ceremony, a glittering and exclusive party inspired by The Great Gatsby, Timeless Cocktail, was held at The Club of Londoner Court. The cocktail event featured living statues that came to life to offer guests champagne, live musical performances, and bespoke cocktails by Jay Khan, from the number one bar on Asia's 50 Best list, Coa.

Other memorable moments from the art-of-time celebration included an informative panel discussion for invited guests. Held on Sept. 25, it explored the significant impact that GPHG has had on the watchmaking industry.

This Watch With a Half-hidden Dial Won the Ladies Category at GPHG 2023

BY CANDICE CHUA | 26 NOV 2023

Piaget has emerged as the double award winner in both the Ladies category and Artistic Crafts category at Grand Prix d'Horlogerie de Genève (GPHG) 2023.

With its stunning half-hidden design of gold on one side and sapphire on the other, the aptly-named Hidden Treasures Cuff is an embodiment of what happens when mastery, artistry, creativity and – dare we say – audacity collide.

Inspired by Piaget designs from the 1960s and 1970s, the GPHG winner is bold in every aspect. The devil is in the details: Each line on the cuff is engraved by hand, one line at a time with the tip of a burin, meaning no two pieces of the Hidden Treasure Cuff are the same. A turquoise dial completes the watch, going seamlessly with the sapphires on the frame.

今晨，2023 GPHG 结果出炉

来源: 腕表之家 类型: 表家号 作者: 万表奇观

一年一度的钟表届奥斯卡，“GPHG日内瓦钟表大赏”就在北京时间今天凌晨落下帷幕。“金指针”奖和其他十五个专业奖项也已经各有所属。

GPHG每年的评审人员，都是从世界各地众多的评审学院成员中抽取。今年GPHG的评审委员会抽中的组成人员，有我最爱的珐琅大师 Anita Porchet。去年金指针奖“MB&F”按照规定今年不允许参与，其CEO Maximilian Büsser 自动转入本届评审。除此之外还有制表大师 Philippe Dufour的女儿Danièla Dufour，知名钟表网站Hodinkee的创始人Benjamin Clymer等等。

虽然越来越少的集团品牌参与送选，GPHG的公正性得到越来越多的质疑，但在下一个更专业更有影响力的奖项出来之前，GPHG还是每年钟表业影响最大的专业评选。暂且我们就当个热闹看吧。今年的奖项颁发顺序有了很大的更改，越重要的奖项越在最后搬出，我不想吊大家胃口，所以我按照他颁奖的倒序来介绍。

年度最美珠寶表！寶格麗Serpenti摘鐘表奧斯卡

日內瓦鐘表大賞（Grand Prix d'Horlogerie de Genève，簡稱GPHG）是鐘表界的奧斯卡。義大利品牌寶格麗（BVLGARI）繼2021年榮獲GPHG最高榮譽的金指針獎（Aiguille d'Or）後，去年憑藉著Serpenti Misteriosi Piccolissimo頂級珠寶神秘腕表和Octo Finissimo Ultra超薄腕表雙雙拿下最佳珠寶腕表大獎及無畏獎（Audacity Prize）。今年，寶格麗再度以Serpenti Misteriosi Cleopatra頂級珠寶神秘腕表摘下最佳珠寶腕表大獎。

宛如埃及豔后化身的Serpenti Misteriosi Cleopatra頂級珠寶神秘腕表，薈萃寶格麗對彩色寶石的真摯熱情，以抽象手法詮釋品牌經典蛇形符碼，華麗搶眼的造型令人聯想到古埃及法老王和埃及豔后配戴的寬版手鐲。作為Colour Treasures色彩寶藏系列嶄新代表作，這款獨一無二的頂級彩寶手鐲腕表體現寶格麗高超的珠寶工藝，雪花密鑲鑽石圍繞的9顆鮮豔彩寶，組成華美耀眼的蛇鱗，光是鑲嵌寶石就需耗費超過470個小時；鑲鑽表盤更暗藏在一顆色澤清透的六角形切割藍色拓帕石之下，是「彩寶藝術大師」寶格麗和諧運用各式璀璨彩寶的巧妙當代創新。

日内瓦钟表大赏主席Raymond Loretan

不排斥竞争， 但GPHG才是决赛

专访日内瓦钟表大赏主席Raymond Loretan

文: 丁之向

参与到GPHG之中,也有利于品牌建立自己的声誉和影响力

钟表业每年一度的盛事——日内瓦钟表大奖 (Grand Prix d'Horlogerie de Genève, GPHG), 2023年已经进行到第23届。11月9日,在日内瓦的莱芒剧院 (Théâtre du Léman),随着盛大的颁奖典礼落下帷幕,各个奖项的得主也纷纷出炉。

就为本届的GPHG颁奖典礼前5小时,我来到正在紧张准备当晚典礼的现场,独家专访GPHG主席 Raymond Loretan。

我在2014年到2017年担任了4届GPHG的终评委。在过去十多年里,我和许多钟表品牌聊起钟表奖项时,很多品牌非常认同GPHG的权威性,但也有些品牌认为GPHG只是行业的一场活动而已。您是否也有类似的体验?您又是如何面对的?

Raymond Loretan:我相信GPHG的公正和权威,也了解到有些品牌的疑虑,我认为想要说服他们,或是吸引他们参与的最佳手段,是把GPHG做得更好。我们从2020年起我们建立了GPHG学院 (Academy) 来改进评选机制,如今我们已经来自全球的860名学院成员,他们协助我们选择、评判产品。3年来,这个机制已经逐步完善并经历了实际运作的测试。我们希望以此来实现评选的公开、公平、公正,让整个行业都看到、都认可这样的程序,这860名学院成员是实现这一目标的基础。

另外,我们强调GPHG的国际性,除了本土的品牌,我们也关注、邀请海外的生产商参与其中。参与到GPHG之中,也有利于品牌建立自己的声誉和影响力,这就如同奥运会,参与即为胜利。这需要时间,我们也有耐心,我

们会和各个方面保持对话,人们会逐渐认可GPHG的品质和影响,也会有更多的品牌参与进来。

除此之外,我们还承担了一部分推广、教育的任务,让年轻人认识、热爱这个行业。目前钟表业面临后继乏人的困境,而我们必须对此有所贡献。通过更多的对话,更优质的大奖,我们会赢得更多人的认同。

我们绝不会哀求任何人或任何品牌来参与的……

当然了,GPHG的名声已在,最完美的产品也会遭遇负面的评价的……

Raymond Loretan:是的,有时候没人批评反而是个不好的征兆……我们在不停地优化,提高,不是参与是品牌的决定……

近年来,我们看到有一些钟表集团在筹划类似的行业奖项,来评选、奖励独立钟表企业或制表匠。您如何看待这一现象?

Raymond Loretan:竞争总是好的,它不会杀死你,只会让你变得更好。不过你也要想一想:一个品牌或一个集团来举办的奖项,和由政府支持的基金会举办的奖项,应该不在一个水平线上。所以我不会反对这样的现象,反而视其为我们的预选赛,而GPHG才是决赛。

最近几年,我们发现GPHG特别受到独立制表人、独立小品牌的青睐,在主流大企业、大品牌和大集团以及独立小品牌、制表人中,GPHG是否有所倾向?

Raymond Loretan:对独立制表人来说,进入GPHG预示着巨大的成功,其重要性远胜于成熟的大品牌。但我们不会有任何倾向,我们平等对待所有的参与品牌。我们不会有计划地推广新品牌、独立品牌,人人都是平等的。你看着结果就会发现,每个参与者都有一样的机会,无论来自大集团还是独立制表人。我们首要的原则,就是绝不打压或推举任何参与者,给大家一样的机会来表现。

2023年日内瓦钟表大赏颁奖典礼现场

整个评选的过程是无法操纵的，我们所做的就是保证这一过程的顺利进行，以及保证参与者和展示品的安全。我自己都不知道今晚谁会获奖，只有几个必须操控今晚典礼顺序的人知道。你做过评委，你就明白了，你也不会提前知道的。

关于GPHG自身的宣传推广，我发现今年GPHG展览曾经到过中国香港和中国澳门，但却没有出现在中国大陆，这又是出自怎样的考虑？

Raymond Loretan: 这只是因为在制定今年的巡展计划时，我们在香港和澳门找到了合作伙伴，我们曾经计划去上海的。我们也知道必须深入中国大陆，去上海或北京，但我们需要有当地的合作伙伴。另外所有提名的表只有一个月的时间来做全球的巡展，其中还包括了很多物流、报关、保险等等常规操作所需的时间。譬如今年，我们先去了亚洲，然后去北美的纽约，然后回日内瓦。一周后我们要动身去迪拜，然后苏黎世，不过这次简单很多，我们只带今晚最终获奖的产品去。

只是希望明年或后年，我们能在中国大陆看到GPHG的巡展……

Raymond Loretan: 是的，这都在计划之中了，只是现在还不能公布，还有很多细节没有落实。还有就是物流的问题，我们必须计划一个便利的地点。

您是否觉得行业中会出现另一个类似GPHG的大奖？在行业中总有这么一些传言……

Raymond Loretan: 是的我也听到过。我们必须集中精力做自己的，我们已经有23年的历史，是行业中最悠久的奖项，现在又有了学院，到2025年我们的学院成员将有1,000人。如我所说，竞争肯定是好事。我们也随时准备好了如果有人愿意和我们谈，我们绝不会视之为威胁。也有一些品牌或集团在筹划奖项，但我们的全球性、权威性和成熟性都是无法比拟的。

我们也注意到有一些行业中重要的品牌、生产商始终没有参与到GPHG中，怎样让这些在行业中举足轻重的品牌回来，这对您而言是否是个难题？

Raymond Loretan: 我不会反对竞争，反而视其为我们的预选赛，而GPHG才是决赛

Raymond Loretan: 我们要这么看：更多行业中重要的品牌已经在参与。当然我们也会向那些缺席的品牌传递合适的信息，同时优化我们选择参评产品的程序，强化针对年轻一代的教育功能。我们是个小型的组织，人员很少，常年都在出差旅行中，很多事是急不起来的，要一步步走。

我们不是个市场推广部门，而是联合基金会，是將有志于对推广钟表业的伙伴联合起来的组织。

那么GPHG的未来在哪里？会怎样？

Raymond Loretan: 从2020年成立学院以来，到2025年，这一新的形式一直在完善之中。然后我们会进入第二阶段，从2025年到2030年，我们会将学院的性质从选择产品向代言GPHG过渡。一方面我们会加强推广GPHG本身，同时我们会改进参选的程序，譬如现在我们通常是要求品牌来报名参与，到了某种阶段就可以不需要品牌来报名，而选择权就完全交给我们的学院，但这是未来的理想和设想，目前还没有到细化的程度。当下，我们致力于加强现有的工作，巩固目前的成果。◀

The Foundation of the Grand Prix d'Horlogerie de Genève (GPHG 2023) : Best Mens Watch Complication Nominations

SEPTEMBER 5, 2023 [SHARE](#) [COMMENTS OFF](#)

A complication is any function that does more than just tell the time. This year the academy of Grand Prix d'Horlogerie de Genève (GPHG 2023) has picked some interesting complications to compete in the category of complicated mens watches.

These watches feature all kinds of classic and/or innovative complications and indications (e.g. world time, dual time or other types of model) and do not fit the definition of the Men's and Mechanical Exception categories.

1. PARMIGIANI FLEURIER – TONDA PF MINUTE RATTRAPANTE

The TONDA PF Minute Rattrapante – the concept behind its creation was to reimagine a standard watchmaking function and aid in its development into a game-changing breakthrough. The basic idea is that the graduated bezel on a diver's watch can be replaced by the movement. As a result, the interface is friendly to users, the text is easy to read, and the process of activating the feature appears straightforward. [Read more here](#)

The Foundation of the Grand Prix d'Horlogerie de Genève (GPHG 2023) : Nominations For The Chronograph Watch Of The Year

SEPTEMBER 6, 2023 [9 SHARE](#) [COMMENTS OFF](#)

Measuring elapsed time intervals with precision is one of the most used functions in watch – the Chronograph. This one is quite a no-brainer. For the watches nominated for Grand Prix d'Horlogerie de Genève (GPHG 2023) this year we are looking at mechanical watches with at least one chronograph indication.

Here are the Grand Prix d'Horlogerie de Genève (GPHG 2023) academy's nominations for the chronograph of the year.

1. GRAND SEIKO – TENTAGRAPH

Grand Seiko has introduced the Tentagraph, its first mechanical chronograph, to its Evolution 9 sports watch collection. At the heart of the watch's chronograph movement is Grand Seiko's ground-breaking high-beat Caliber 9SA5. The new Tentagraph Caliber 9SC5, like the older Caliber 9SA5, ticks ten times per second, providing excellent precision when determining both the passage of time and the hour of the day. The watch has a power reserve of three days, even with the chronograph running, thanks to its energy-efficient escapement and two barrels, making the Tentagraph the 10-beat chronograph with the longest power reserve in the industry today. GPHG 2023: Meet the Nominees for the Iconic Timepieces Category

The Iconic Category Recognises Watches That Have Had A Significant And Enduring Impact On Watchmaking And The Market For Over 20 Years

SEPTEMBER 8, 2023 - NEWS - 4 MIN

Scheduled for November 9 in Geneva, the 2023 Grand Prix d'Horlogerie de Genève (GPHG) will feature a total of 90 timepieces, including 84 watches and six clocks, vying for recognition across 15 distinct categories. Among these, the most coveted accolade, the "Aiguille d'Or" Grand Prix, awaits one exceptional timepiece. The GPHG, which transitioned into a public interest foundation in 2001, employs a meticulous selection process that involves active participation of the GPHG academy, consisting of several hundred members, who play a pivotal role in the nomination process. Furthermore, a panel of 30 experts will personally assess the final nominations before the prestigious GPHG awards ceremony at Théâtre du Léman in Geneva.

The evaluation criteria for the category of Iconic timepieces are not only based on design, but also on the rich heritage of a watch's lineage. This category, defined by such regulations as being confined to "watches stemming from an emblematic collection or model that has been exercising a lasting influence on watchmaking history and the watch market for more than 20 years", certainly deserves special attention. Let's check out the remarkable nominees in the iconic category:

SEPTEMBER 9, 2023 [SHARE](#) [COMMENTS OFF](#)

Elvis Presley, Michael Jackson and Mahatma Gandhi amongst others are names that would truly give you a sense of the word iconic. When it comes to watches however it would refer to something widely recognised and well respected. This year the academy of Grand Prix d'Horlogerie de Genève (GPHG 2023) has nominated six such icons to compete in the category of the iconic watch of the year..

These watches should stem from an emblematic collection or a model that has been exercising a lasting influence on watchmaking history and the watch market for more than 20 years.

The nominations are:

1. AUDEMARS PIGUET – ROYAL OAK OFFSHORE SELFWINDING CHRONOGRAPH

The first **Royal Oak Offshore** with a case and bracelet made entirely of ceramic. This material is also used for the push-pieces at 2 and 4 o'clock that operate the chronograph, as well as for the screw-locked crown at 3 o'clock. This reference is powered by Calibre 4404, Audemars Piguet's integrated chronograph movement with a flyback function.

The Calendar And Astronomy Timepieces Category Recognises Watches With At Least One Calendar And/Or Astronomical Complication On Each

SEPTEMBER 13, 2023 - NEWS - 5 MIN

Nominations for the GPHG 2023 Calendar and Astronomy category are as thrilling as those in the other sections. The GPHG rules state that 'men's mechanical watches comprising at least one calendar and/or astronomical complication (e.g. date, annual calendar, perpetual calendar, equation of time, complex moon phases display, etc.), additional indications and/or complications are admissible'. Needless to say, this category stands out courtesy of its captivating subjectivity. In other words, unlike other categories with strict criteria, Calendar and Astronomy invites a breathtaking array of interpretations and designs. This inclusive spirit sets the stage for a dazzling line-up of horological wonders, all vying for the prestigious title. Brace yourselves as GMT India unveils the nominees.

featuring a slender, dainty silhouette that is the perfect companion at all times. Like the rest of the collection, the new Overseas self-winding model features an interchangeable bracelet and buckle system serving to adapt its style to any situation. In addition to its pink gold bracelet - as supple and soft as a second skin thanks to its slender links reminiscent of the Maltese cross - this glamorous timepiece comes with two additional straps. In a harmonious combo, it's perfectly dressed for everyday wear as well as for special evenings out. Paired with a white calf leather strap, it's ready for urban adventures. Teamed with a white rubber strap, it brings a sportier touch to the wrist. The watch is powered by the Calibre 1088/1. This high-precision heart operates at a frequency of 4Hz. For even greater timekeeping precision, this movement is equipped with a stop-second mechanism enabling accurate adjustment of time functions. The movement is also endowed with a 40-hour power reserve. Every detail of the decoration on the open caseback has been meticulously crafted. The rear bridges are adorned with Côtes-de-Genève, while the collection's emblematic rotor is sculpted in gold and graced with a compass rose, staging a perpetually changing show evoking travel and exploration. The watch's water-resistance level has been tested at a pressure of 15 bar (approx. 150 metres).

Kross Studio's New Collection equipped with an ingenious movement

Kross Studio has unveiled the new KS 05 Timepiece Collection, marking two significant firsts for the manufacturer: it is the first collection issued solely by the design studio, and it showcases the specially developed central floating tourbillon movement. Beating at its heart is the manual-winding Calibre KS 7'005, a unique patented watchmaking feat that boasts a power reserve of 120 hours or five days, ensuring optimal accuracy and longevity. The diameter of the barrel, wider than the watch's radius, is placed on the central axis of the movement and the tourbillon sits atop it, offering a stunning view of its intricate mechanism. The barrel, the tourbillon cage and the balance are all co-axial, ensuring smooth operation. The meticulous attention to detail, extends to the case design crafted from Grade 5 titanium or a stunning 18K red gold edition, showcasing a seamless blend of aesthetic appeal and functionality. Both the

titanium and gold iterations can be fully adorned with 281 pavé-set diamonds totalling approximately 5.09 carats. Each variant is issued in a 10-piece numbered series.

Geneva Watch Days 2023 The Watch Industry's Summer Get-Together Draws to an End

After a week full of launches, meetings and lively discussions, Geneva Watch Days, held from August 29 to September 2, 2023 can look back on a record edition: 39 participating brands and nearly 1,500 industry professionals, including 600 media representatives and 300 retailers, came from all over the world to gather on the shores of Lake Geneva. The pavilion at the Rotonde du Mont Blanc was open to the public for four days and welcomed 8'000 people from the public, who were able to admire the latest offerings from the brands in 51 display cases grouped around three themes. 450 of them enjoyed guided tours led by three experts. The six

symposiums on issues dear to the heart of the watchmaking industry were also a great success, each one drawing in fifty or so listeners to the auditorium. The brunch organized on Saturday, September 2 by the Fondation de la Haute Horlogerie attracted about 100 watch lovers to put their knowledge to the test in a quiz. Students, collectors and business executives had the opportunity to talk directly with the CEOs of the participating brands at three informal breakfasts. Finally, the charity auction held on August 30 organized jointly by Geneva Watch Days and Phillips in

association with Bacs & Russo raised CHF 110'000.-for a fund dedicated to worthy students at the Ecole d'Horlogerie de Genève who find themselves in economic difficulty. "Naturally, the success of this edition is down to our participating brands, and also to our partners. GPHG President Raymond Loretan Wants To See Indian Watch Brands Enter Their Timepieces Into The Famed Annual Watchmaking Competition

Raymond Loretan, President of the Grand Prix d'Horlogerie de Genève (GPHG)

OCTOBER 11, 2022 - INTERVIEWS - 5 MIN

Formed in 2001, the Grand Prix d'Horlogerie de Genève (GPHG) recognises and rewards brilliant timepieces each year; over the years, their awards have become known as the 'Oscars of Watchmaking'. Last weekend saw the GPHG exhibit return to New Delhi, eight years after its first visit to India. During the two-day event hosted by Ethos Watch Boutiques, a whopping 80 timepieces were on display and leading the efforts for the GPHG was Raymond Loretan, the Geneva-based foundation's president.

Loretan has certainly had an interesting run as the GPHG president since he took over in 2018; his tenure has seen the foundation face the pandemic years. Moreover, he has been actively working towards consolidating the reputation of the foundation and the awards. *GMT India's* Managing Editor Vidya Prabhu caught up with the GPHG president to discuss the organisation's key initiatives, promoting impartiality and sustainability and attracting more participation. Excerpts from the interview:

Vidya Prabhu (VP): You took over the reins at GPHG in 2018. So, how would you look back at these four years, especially in the context of the pandemic?

Raymond Loretan (RL): It was challenging for everybody, including us. There's always a certain learning involved in such an organisation, especially in the beginning. What I am particularly proud of is the realisation of the Academy. For me, it's a turning point, because the idea was in the air and then we said, "Let's do it." For our 20th anniversary, we created this Academy and that was our present to ourselves and to the watch industry. Creating the Academy allowed us to change the positioning of the organisation in the world, from being just a watch competition to a serious awards event.

VP: GPHG is hailed as the Oscars of watchmaking.

RL: Yes, we have dramatically changed the selection process of the Grand Prix, because earlier, we had a jury of 30 people appointed by the Grand Prix and by the foundation. We were suspected of not being totally impartial. This isn't

The Serpenti Misteriosi Cleopatra, the "Jewellery Watch Prize" winner at GPHG, is the latest chapter in Bulgari's love affair with the ever-evolving serpent. As part of Bulgari's Colour Treasures series, this one-of-a-kind high jewellery cuff watch is brought to life through vibrant gem combinations. It remarkably showcases the Roman jeweller's expertise in gemstones, with attention-grabbing skin revealing an exquisite surprise: a diamond-set dial hidden behind a faceted hexagonal see-through rubellite.

A GLOBAL CELEBRATION

Four of our favourite timepieces this time are the winners at the prestigious Grand Prix d'Horlogerie de Genève (GPHG) 2023

The Dior Grand Saïr Automate Étoile du Monsieur Dior model, recently awarded the "Ladies' Complication Watch Prize" at the 2023 GPHG, pays direct homage to Christian Dior. For one, it showcases a unique and special dial that brings together the symbols that accompanied him during his life: the star guiding his steps when he founded his fashion house, the iconic address of 30 Avenue Montaigne, and the constellation of Aquarius corresponding to his zodiac sign. In short, the watch explores the dreamlike worlds dear to Monsieur Dior.

Piaget's Palace Décor was first developed in the 1960s, inspired by the guilloché technique in watchmaking. Essentially, this engraving art begins on a bracelet of gold links, which an artisan skillfully and manually sculpts many stylised grooves and outlines. This year, Piaget's Palace Décor made its way onto a new cuff watch with a striking, robin-egg blue turquoise stone dial at Watches and Wonders Geneva. Distinctively and one-of-a-kind, the best part is that it has won the "Ladies' Watch Prize" at the 2023 GPHG.

Hauslence Sphere Series 1, the "Innovation Prize" winner at the 2023 GPHG, presents an innovative way to display the time. Following the jumping hour disc and the half-scaling hour chain, the hours now jump on a three-dimensional spinning sphere on the dial. This blue sphere occupies the left-hand portion of the case in the brand's signature TV screen shape, while at the same time, the retrograde minute display on the right side attracts everyone's attention.

Ferdinand Berthoud

Juri GPHG menganugerahkan "Chronometry Prize" kepada Chronométrier Ferdinand Berthoud untuk model Chronomètre FB 3SPC.1-1. Sebagai pilar ketiga dari koleksi merek yang terinspirasi dan mengikuti tradisi pembuat jam tangan terkenal abad ke-18 yang menjadi nama merek tersebut, koleksi ini mendekati tema inti presisi dari sudut pandang baru. Sebagai catatan khusus, jam dengan konstruksi baru ini digerakkan oleh Calibre FB-SPC, mesin jam pertama dan satu-satunya hingga saat ini dengan bagian cylindrical hairspring yang secara resmi mendapatkan sertifikasi dari Official Swiss Chronometry Testing Institute (COSC). Oleh karena itu, hanya beberapa buah jam tangan ini yang dibuat setiap tahunnya, karena semuanya dirancang, dibuat, dan didekorasi dengan tangan sebelum disesuaikan dan dipeniksa—semuanya mengikuti kriteria kualitas paling ketat di ruang kerja Chronométrier Ferdinand Berthoud di Fleurier. L'Épée 1839

Keunikan model L'Épée 1839 Time Fast II Chrome membuatnya meraih kategori "Mechanical Clock Prize." Hasil dari persimpangan dunia mobil balap dan seni seperti halnya Ferrari 250 Testarossa hingga Lamborghini Miura pada masa keemasan performa mobil sport dan desain ramping yang sensual di tahun 1960-an, L'Épée 1839 menerapkan tema serupa. Dengan desain permukaannya yang ramping dan reflektif, Time Fast II mengubah dimensi artistiknya dari karya seni demonstratif menjadi karya seni kinetik. Tampilan waktu untuk jam dan menit terlihat dan filter udara ganda yang memasok dua karburator V8, dengan mekanisme mesin yang dilengkapi cadangan daya selama 8 hari. Uniknya, bagian bawah helm pengemudi menunjukkan animasi escapement 2,5 Hz secara terus-menerus dan jika si pemilik memutar kunci kontak, otomatis akan membuat piston mesin V8 bergerak naik dan turun secara realistis seperti aslinya. Harga termasuk pajak: CHF 46,850 (sekitar IDR 841,6 juta). www.lepee1839.ch

Petermann Bédat

Kategori "Chronograph Watch Prize" dimenangkan Petermann Bédat dalam koleksi Chronographe Rattrapante Ref. 2941 Edisi Terbatas. Hal ini mengangkat workshop kerajinan kecil di kota Renens ini yang kemudian masuk ke dalam lingkaran pabrikan bergengsi seperti di Jenewa atau Glashütte. Bagi Gaël Petermann & Florian Bédat, kompleksitas tidak pernah berakhir, dan hal ini juga tertuang dalam model yang hadir dengan tingkat kerumitan yang jauh melampaui desain chronograph tradisional ini. Misalnya, pada kolom chronograph dasar, mereka telah menambahkan fungsi split-second yang memungkinkan dua interval waktu yang dimulai pada saat yang sama diukur secara paralel. Merancang, membangun, dan menyesuaikan hal ini dalam case platinum yang telah didesain ulang seluruhnya dalam ukuran 38,6mm merupakan tantangan tersendiri, dan model ini juga memberikan keamanan tambahan yang mencegah penyetulan ulang stopwatch yang tidak disengaja. Harga termasuk pajak: CHF 243,000 (sekitar IDR 4,3 milyar).

Piaget

Tahun ini Piaget memenangkan dua penghargaan, termasuk "Artistic Crafts Watch Prize" untuk model Piaget Altiplano Météora d'Art Undulata dari lini koleksi Piaget Metaphoria yang terinspirasi oleh keindahan dan kekuatan alam yang tak terduga. Memadukan warna hijau, biru, dan warna-warni lain ke dalam satu dial jam, seniman Francis Rose Saneuil menciptakan miniatur marquetry dengan volume, tekstur, dan warna, dan dengan hati-hati ia memotong setiap elemen dengan bahan yang sangat tipis sebelum memasukkannya satu per satu ke bagian dial jam. Mahakarya ini memiliki beberapa lapisan yang dirakit dengan cermat menggunakan tangan untuk menciptakan efek memukau pada mekanisme Piaget flying tourbillon khas merek ini. Jam berdiameter 41mm dari emas putih 18K dan berlian ini diproduksi terbatas sejumlah delapan buah. Harga termasuk pajak: CHF 225,000 (setara IDR 4 milyar). www.piaget.com

Ulysse Nardin

Model legendaris "Freak One" dari Ulysse Nardin menjadi pemenang dari kategori "Iconic Watch Prize". Penghargaan ini menyoroti dampak revolusioner model Freak terhadap industri jam tangan, didorong oleh upaya tanpa henti dari Ulysse Nardin terhadap inovasi dalam hal mekanik, bahan, dan juga estetika desain. Sejak debutnya yang inovatif dua dekade lalu, Freak secara konsisten menantang pembuatan jam tangan konvensional melalui tiga karakteristik ikoniknya: tanpa dial, tanpa jarum jam, dan juga tanpa crown. Ini adalah pertama kalinya sebuah mesin jam didekonstruksi untuk mengekspresikan waktu dengan sendirinya, sehingga memunculkan kode-kode pembuatan jam yang benar-benar baru. Model ini adalah puncak dari desain dan kemajuan teknologi yang berani yang pertama kali diperkenalkan di bawah kepemimpinan visioner Rolf Schryder dan kejeniusan pembuat jam tangan Ludwig Oechslin. Harga termasuk pajak: CHF 65,000 (sekitar IDR 1,1 milyar). www.ulysses-nardin.com

Voutilainen

Kategori "Men's Complication Watch Prize" tahun ini jatuh kepada Voutilainen CSW, atau Cushion Shape Worldtimer. Sesuai namanya, jam berbentuk cushion shape berukuran 39 x 40mm ini adalah sebuah interpretasi baru akan seni pembuatan jam tangan kontemporer di ruang kerja Voutilainen. Tampilan dial yang dibuat dengan teknik *hand guilloché* semakin terlihat elegan dalam balutan warna Anthracite. Warna ini memberikan kesan abadi yang bertahan selama beberapa generasi ke depan, sekaligus dipilih untuk meningkatkan keterbacaan yang mencerminkan fungsinya dan memberi fokus khusus pada 24 bagian terukur yang sesuai dengan sektor waktu dunia. Ditenagai oleh mesin calibre 216TMZ dengan cadangan daya selama 60 jam, jam tangan edisi terbatas sejumlah 10 buah ini juga dihiasi dengan empat sekrup fungsional di setiap sudut pada bagian bezel dengan desain tiga lubang khas merek tersebut. Harga termasuk pajak: CHF 198,000 [sekitar IDR 3,5 milyar]. www.voutilainen.ch

The business of watchmaking, like every other industry, continues to evolve to the present day. From antique pocket timekeepers to **avant-garde timepieces**, the world has witnessed it all. Today, the **Grand Prix d'Horlogerie de Genève (GPHG)** exists to recognise both legacy and the craftsmanship that goes along with it.

GPHG was established in 2001 with a vision to highlight some of the most outstanding creations and advance the sector on a global scale. Dubbed the industry's "Oscars," the event takes place annually and features hundreds of timepieces marketed throughout the year. Each year, around twenty trophies are awarded at the award ceremony in November.

The shortlisted timepieces will first be displayed at a travelling exhibition that the committee will stage in major cities across the world. Each of these installations offers visitors the opportunity to discover and admire some of the year's most stunning watches. Kuala Lumpur has been selected as one of its stops this year, following Macau and Hong Kong. In partnership with The Hour Glass, the exhibition was hosted at Pavilion Kuala Lumpur's Centre Court from October 5 to October 8, 2023.

Following the touring exhibitions of the shortlisted pieces and deliberative voting by Academy members, the final results of the 23rd **Grand Prix d'Horlogerie de Genève (GPHG)** were revealed earlier this month. The much-anticipated ceremony was hosted at Geneva's Théâtre du Léman and announced the 19 winners in the presence of industry players and watchmaking fans.

One of the main highlights was the coveted Aiguille d'Or Grand Prix, awarded to **Audemars Piguet** for the Code 11.59 by Audemars Piguet Ultra-Complication Universelle RD#4 watch. This exquisite piece is remarkable as it blends the House's expertise in horology to create a single self-winding movement that powers 40 functions, including 23 complications. Meanwhile, Vincent Calabrese and Svend Andersen received the Special Jury Prize. The two bagged the prize for establishing the **Académie Horlogère des Créateurs Indépendants (AHCI)**, a community of independent watchmakers based in Switzerland.

Grail Watch 8: Kudoke 2 'Starry Night'

GRAIL WATCH

It gives me great pleasure to announce the latest Grail Watch collaboration project, this time with independent watchmaker Stefan Kudoke. The watch we have decided to work on is his Geneva Grand Prix award-winning Kudoke 2, a 39mm by 10.7mm watch featuring Stefan's in-house movement, the Kaliber 1-24H. This movement represents an important act of democratization for stunning handmade finishing. It includes a hand-frosted movement bridge, mirror-polished angles, a hand-engraved balance cock, snail-finished barrels, all in a far more accessibly priced package than these crafts are normally associated with.

The Kudoke 2 features a wonderful sense of restrained, German neoclassical watchmaking design, complemented by a touch of poetry — a sky disk at 12 o'clock indicating 24 hours, with a display of day and night. Since its launch in 2019, I have been deeply enamored with this timepiece and consider it an enormous honor to be able to collaborate with Kudoke on this watch. Our version, nicknamed "Starry Night," is inspired by the seminal work of Post-Impressionist painter Vincent van Gogh, in particular the swirling vortex of luminous stars that he saw above him as a patient at the Saint-Paul-de-Mausole asylum.

In addition, as Montanari points out, Patek Philippe was also the first to create a perpetual calendar chronograph in 1941 with the legendary Ref. 1518. Ahmed Shary Rahman, modern Patek Philippe collector and GPHG jury member, says, "More than shaping the history of high watchmaking. Patek *is* high watchmaking. And what I love is that when they launch new watches, it's never a gimmick; it's never to create a social media sensation, but to introduce new functional complications backed by a tremendous amount of research and new functional innovations." The message is clear: amid a world where watch brands are launching a constant dizzying array of newer, better, splashier, crazier timepieces, Patek Philippe makes *real* watches. What do I mean by this?

This award-winning movement demonstrated just how serious Ferdinand Berthoud was about its mission to champion rarefied watchmaking at its best, and in the years since, it has been seen in several evolutions and iterations of Ferdinand Berthoud's offering.

Not so much for the magic of revitalizing wearied brands, but more for consistently aligning powerful marketing decisions with financial engineering. And what the group can't achieve from scratch, they'd just buy the necessary competencies. The watch business unit – which is, in fact, under one roof with the jewelry – is no exception to the rule.

Even though watches are by far not the main business unit within the LVMH empire, its importance is growing. As of today, LVMH's main watch brands and the jewelry brands also propositioning watches account for ~6% of the group's sales and ~4% of its EBIT.

Comparatively, Louis Vuitton [Horlogerie](#) represents not even 1% of the brand's sales*, which not only indicates significant latent potential, but also that taking any bold moves – such as repositioning the watch offering at a much higher price point – doesn't put the brand at risk.

In 1995, LVMH bought Fred Joaillier; this is followed in 1999 by Chaumet, Ebel, TAG Heuer and Zenith. Bulgari's watches – which account for ~12% of the brand's total sales – are very successful, though not to the same extent as the jewelry, and are a good example of

Meet the watch with a half-hidden dial that won the Ladies category at GPHG 2023

With its stunning half-hidden design of gold on one side and sapphire on the other, the aptly-named Hidden Treasures Cuff is an embodiment of what happens when mastery, artistry, creativity and – dare we say – audacity collide. Inspired by Piaget designs from the 1960s and 1970s, the timepiece is bold in every aspect. The devil is in the details: each line on the cuff is engraved by hand, one line at a time with the tip of a burin, meaning no two pieces of the Hidden Treasure Cuff are the same. A turquoise dial completes the watch, going seamlessly with the sapphires on the frame.

Extremely successful in the 1990's and beginning of the 2000's with emblematic products and campaigns such as the "Parsifal", the brand has however lost a lot of traction these days.

Existing competitors, such as Tissot or Longines and new ones such as, Frédérique Constant, have made life hard for this brand competing with such heavy weights. When the mechanical watchmaking renaissance hit its stride in the early 2000s, the Swiss watch industry had just one main event: the Baselworld watch and jewelry show, a trade fair held every spring in the river port city of Basel, Switzerland.

Two decades later, the trade's event calendar is packed with meet-ups, fairs, auctions, conferences and awards ceremonies. To help make sense of the fall 2023 schedule, we've highlighted a handful of goings-on, from a pair of New York City buying fairs to the watch industry's answer to the Oscars.

RedBar global meet-up

This coming weekend as many as 200 members of the [RedBar Group](#), the watch industry's largest collectors group, with around 90 chapters worldwide, are expected to gather in Edinburgh, Scotland's hilly capital, to ogle, buy and talk watches.

"It's just watch nerds hanging out," Kathleen McGivney, the group's New York-based chief executive, said recently.

G.P.H.G. awards ceremony

Since 2001, the industry's best and brightest brands have competed in the annual [Grand Prix d'Horlogerie de Genève](#) (G.P.H.G.), an Academy Awards-like watch design competition that culminates in a ceremony at the Théâtre du Léman in Geneva.

The 2023 competition, which highlights timepieces in 15 categories, including "men's complication," "jewelry" and "challenge" (restricted to watches that retail for 2,000 Swiss francs, about \$2,264, or less), has attracted 230 entries. They include 56 from non-Swiss brands, said Raymond Loretan, president of the G.P.H.G.

"For a long time, this prize was understood as a Swiss watch promotion, but it's opening up and becoming quite universal," he added.

The ceremony will be live-streamed on the G.P.H.G. website. As at the Oscars, winners will be announced in real time.

The finalists in each wristwatch category, 84 timepieces in total, are scheduled to take part in an [international roadshow](#) that begins in Macau on Sept. 25 and concludes in Zurich on Dec. 3, with stops in Hong Kong; Kuala Lumpur, Malaysia; New York; Geneva; and Dubai, United Arab Emirates. SEPTEMBER 28, 2023

Ten years ago this year, I was asked to join the jury of the Grand Prix d'Horlogerie de Genève (GPHG) – by all definitions, the closest thing watchmaking has to the Academy Awards. It was a very big deal at the time. In 2013, I was among the only American jury members, the only digitally native juror, and certainly the youngest in a field of experts that, in many ways, represented what watchmaking was back then. It was just different then.

It was helmed by Aurel Bacs, then the head of the Christies, watch department, years before he would take over and revamp Phillips, or sell Paul Newman's Paul Newman. Believe it or not, that 2013 jury also included Philippe Starck and John Mayer. For additional context on how different things were, Hodinkee saw about
